

## **If Love Is A Promise**

Music and Lyrics by Keith Herbert and Hannah Herbert-Hunt

### **LEO**

All of this is new to me, I always stick to facts  
Relying on the system and following the rules  
We can't control the fate of things if opposites attract  
Were we blinded by romance or simply being fools  
All this leads to asking  
Is there love that's everlasting?

Hoping she would change for me, I thought she could adapt  
Stuck in constant argument, why did we go on  
Acting like we chose that path, when really we were trapped  
Always thought that it was love, now I think I'm wrong  
If all I did was blunder  
Then I'm only left to wonder

If love is a promise, I give you my word  
If love is a story, it isn't one I've heard  
If love is friendship, we're already friends  
If love is romance, then how should I begin

You're never asked too much of me, though how you feel is clear  
Time has grown impatient and our future has been dealt  
How do I discover love, does it just appear  
Yearning for a passion that I have never felt  
All this leads to asking  
Is there love that's everlasting?

If love is a promise, I give you my word  
If love is a story, it isn't one I've heard  
If love is friendship, we're already friends  
If love is romance, then how should I begin

Our journey's just begun  
Someday we'll see the Sun  
Look into our future from our own rebirth  
Where our children's children's children sing the songs of distant earth

We've always been together  
What's a little more forever?

If love is friendship, we're already friends  
If love is romance, how should I begin  
If love shows what's possible, an opening of doors  
And love is a promise, my love is yours  
If love is a promise, my love is yours
