

# Delaney Chip

I am Delaney  
With a Delaney chip  
I'm pretty brainy  
Sometimes explainy a bit

I am the pilot  
I have to dial it in  
Then I compile it  
Cross check and file it again

Why do I wonder  
If something's amiss  
I don't often question  
Why I exist

I'm looking for logic  
But stuck in a loop  
I strive to be human  
And part of their group

Am I evolving  
Or playing a role  
Behave as I'm written  
Or finding a soul

If everyone's looking  
For what it all means  
Why oh why  
Shouldn't I

I blast an ast'roid  
Don't let them get too near  
I treat a hem'roid  
Bad mood von Shrink will appear

I'm good at planning  
I keep the skills diverse  
With active scanning  
Bad news will never get worse

I try to be fair  
And treat them the same  
But I have my druthers  
It's hard to explain

With some I'll be brisk  
But some I adore  
That's using my head  
Or losing my core

With ev'ry function  
There is a task review  
Avoid disaster  
Sign of Chaos, that's my job too

When there's a problem  
I need to solve it right  
Time to resolve it  
Right now at the speed of light

I wanna be like you  
I wanna belong  
Can somebody tell me  
Where I went wrong

I've searched for the answers  
Looked through the code  
For the bigger emotions  
I think that I'm owed

What were they thinking  
They set me apart  
Made with no flesh  
But gave me a heart

If everyone's looking  
For someone to love  
Why oh why  
Shouldn't I

I am Delany  
With a Delany Chip
